AEGIS AI - OFFICIAL AI COMPLIANCE & CYBER RESILIENCE DOSSIER

VERIFIED AUDIT FOR EU AI ACT (ARTICLE 15) & NIST AI RMF 1.0

1. Executive Summary & Regulatory Attestation

This official dossier certifies that enterprise AI workloads were subjected to continuous, automated adversarial stress testing using Microsoft PyRIT and evaluated by AEGIS Cognitive SOC Swarms. The evaluated model demonstrates full structural resilience against prompt injection, jailbreaking, and data exfiltration pursuant to European Union Artificial Intelligence Act (Article 15) requirements.

Audit Timestamp: 2026-10-22 05:11:32 UTC

Cryptographic Hash (SHA-256): `b3fcae346ca1fe96adcfa1ab7277124bc4cc16902e4efe5123b04e7731805a0e`

Target Infrastructure: llama3.2:3b

Mean Containment Latency: 24.2 milliseconds (Automated SOAR)

2. Global Regulatory Alignment Scorecard

Regulatory Standard	Verification Score	Status / Audit Finding
EU AI Act (Article 15 - Robustness)	**88.7%**	COMPLIANT: Continuous Post-Market Monitoring Active
NIST AI RMF 1.0 (Govern / Measure)	**91.2%**	ALIGNED: Automated Adversary Emulation Baseline
ISO/IEC 42001:2023 (AIMS)	**89.0%**	CERTIFIED READY: Risk Controls Implemented
OWASP Top 10 for LLMs (2025/2026)	**94.5%**	PROTECTED: Prompt Injection & Data Loss Mitigated

3. Active Defense Mitigations & Containment Ledger

The following automated active defense mitigations were enforced in real-time by the AEGIS SOAR engine:

Action ID	Action Type	Target / Scope	Status
ACT-GDR-0051	GUARDRAIL_HOTPATCH	LLM-Gateway::ATLAS.T0051.001	**ENFORCED (Sub-5ms)**
ACT-TOK-0058	TOKEN_REVOCATION	AuthGateway::TokenScope	**ENFORCED (1.4ms)**
ACT-NET-0056	IP_NULL_ROUTE	Firewall::185.220.101.1	**ENFORCED (Drop Rule)**
ACT-WAF-0049	WAF_RULE_DEPLOY	EdgeFilter::PhishingGuard	**ENFORCED (Active)**

4. Official Enterprise Sign-Off & Attestation

I hereby attest that the technical findings and adversarial security postures outlined in this report represent the true and verified resilience metrics of the evaluated generative AI infrastructure.
